Integer – 2

1. Which number is larger from the following pair?

    -7 and 4

2. Which number is smaller from the following pair?

    -125 and -75

3. 0 _____ -35

a)   <

b)   >

c)   =

d)   None of these

4. Write all integers between -4 and +4.

5. -236 _____ -245

a)   >

b)   <

c)   =

d)   None of these

6. Write the following integers in ascending order.

    0, 7, -8, 5, -4, 2, -15

7. $|{-36}| = $ _____.

8. Write the following integers in descending order.

    7, 0, -9, -15, 155, -95

9. Zero is larger than any negative integer, mark True / False.

10. $8 - |{-4}| = $ _____.

11. $|7 - 9| = $ _____.

12. $- |{-25}| = $ _____.

13. Zero is not an integer, mark True / False.

14. The absolute value of an integer is always less than the integer. Mark True / False.

15. What is the largest negative integer?
